

# Number Writing Barrier Game

**Materials:** Barrier Game grid for each player, divider

---

1. Work with a partner. Sit side by side with a divider standing between you.
2. Player 1: Write a three-digit numeral in each space on your grid without letting your partner see your work.
3. Player 1: Give instructions to your partner on how to write a number in each space to match your grid. Use the number names and positional language to describe where to place them.
4. Remove the divider and look at the two grids to see how closely they match.
5. Swap roles and play again.
